ABOUT

I'm a dedicated Software Engineering student who recently completed my final year project and is now awaiting results. I enjoy building real-world web applications, learning new technologies, and solving problems through full-stack development. My goal is to keep growing as a developer while contributing to meaningful digital solutions.

PROJECTS

Online Bus Reservation System For Long Distance Service

- Developed a Bus Reservation System with seat booking, user login, payments, admin panel, and email alerts using PHP, MySQL, HTML, CSS, and JavaScript.

Agriculture Website - Department of Agriculture

- I built a mobile-friendly website using PHP, JavaScript, HTML, and CSS. I used Visual Studio Code to write and test the code, making the process easier with built-in tools and version control.

Event Planing Website

- Built a full-stack Event Planning Website with PHP and MySQL, featuring event booking, custom packages, admin tools, and a modern, mobile-friendly design.

Doctor Appointment

- Created a doctor appointment system using PHP, HTML, and CSS. It lets patients book online, doctors manage schedules, and admins oversee all bookings easily.

PASSIONS & OTHER SKILLS

- Led several student projects as a project manager.
- Enjoy working alone or in teams; member of ICBT IT Club.
- Interested in AI tools and new technologies.
- Good at creative thinking and solving problems; built a few unique apps.
- Fluent in English, Sinhala, and Tamil.
